

Volaris commits to CMB Financial Leasing (Ireland) Limited to increase its fleet

Mexico City, Mexico, October 26th, 2022. Volaris (NYSE: VLRS and BMV: VOLAR), the ultra-low-cost airline operating in Mexico, the United States of America, Central, and South America, announced a recently formed commitment with CMB Financial Leasing (Ireland) Limited (“CMB”) to increase Volaris’ fleet.

The overall commitment consisted of an inaugural Pre-Delivery Payment (PDP) financing transaction for CMB in the Americas that was successfully documented and executed by all counterparties. The transaction consisted of four Airbus A320neo and three Airbus A321NX. This agreement will bring the number of CMB A320neo family aircraft on lease to Volaris to eleven (four already delivered).

With one of the youngest, most fuel-efficient fleets in America and alongside partners at CMB, Volaris reinforces its ESG strategy to ensure sustainable growth in the long term. These deliveries will also bring passengers the best flying experience, on board the most modern aircraft.

Volaris looks forward to further develop its business partnership with CMB in the years to come.
